Problem Set 9

Kaveh Kavousi
Hesam Montazeri
Fahimeh Palizban
Zohreh Toghraee

Azar 5, 1398
(November 26, 2019)

Problem 1: Review Questions

Write a summary of the lectures of this week. Write down all formulas we discussed in the lectures and explain in detail each step of derivations. As a guideline, you may consider the following topics:

- (a) Different measures of performance assessment;
- (b) Bootstrapping

Problem 2: Conceptual questions

[ISL] chapter 5: questions 2, 6 (programming)

Submit your solutions (using Easyclass) by Azar 10, 1398.
